**Subject:** Human Remains Policy

Thank you for requesting our comments, particularly to L. Dean who made an extra effort to see that received a second draft for comment. We appreciate our earlier comments having been noted. We continued to think that there may be alternatives to the position taken in the proposed policy. We are not convinced that human remains should be considered on the basis of whether or not they are eligible or not eligible archaeological Historic Properties. However we understand the policy follows from and is based in ACHP regulations. In so far as that is the case we find the proposed policy clear.

Thank you,

Stan Wilmoth, Ph.D.  
MT State Archaeologist/Deputy, SHPO
