

Section 106 Classroom Training

Past participants said,

One of the most informative trainings I have attended in my 20+-year career

I'm leaving this training with a wealth of knowledge and a sigh of relief knowing that I can embark on a Section 106 review without fear or hesitation

Why choose the ACHP for Section 106 training?

- *Up-to-the-minute regulatory knowledge*
- *Engaging instructors*
- *Tools for practical application*

Three **NEW!** courses to choose from:

Federal, state, and local government staff; applicants for federal permits, licenses, and other approvals; preservation advocates; and others who are interested in an overview of the federal requirements of Section 106 of the National Historic Preservation Act are best suited for the one-day **NEW Section 106 Essentials** course.

Practitioners interested in applying the four-step review process to real-world federal undertakings and developing a fluency in the Section 106 regulations should register for the two-day **Section 106 Practitioner Workshop** course.

Practitioners comfortable with the four-step review process and the Section 106 regulations who seek successful consultation and agreement writing strategies should register for the one-day **Section 106 Agreements Seminar**.

Choose from available courses:

What is Section 106?

A 15-minute overview of Section 106 of the National Historic Preservation Act. **FREE!**

Successfully Navigating Section 106 Review:

An Orientation for Applicants

Highlights the special role and responsibilities applicants for federal permits, licenses, grants, and other approvals have in the Section 106 review of their proposed projects. **\$50**

Basics NEPA and Section 106 Integration

An introduction to the basic concepts and vocabulary in integrating NEPA and Section 106 reviews of federal undertakings, including high priority infrastructure projects. **FREE!**

Coordinating NEPA and Section 106

Building on the NEPA-106 *Basics*, this course develops skills in identifying and taking advantage of coordination opportunities. Through case examples and challenge questions, learners will apply the concepts in scenarios where an EIS or EA is prepared, or where a CE may apply. **\$50**

COMING SOON! *Substitution of NEPA for Section 106*

Building further on the NEPA-106 *Basics*, this course develops skills in considering the use of the substitution approach and meeting the documentation standards in the Section 106 regulations. The course assumes a working knowledge of the requirements of both NEPA and Section 106. **\$50**
