Were any significant issues (including disputes) identified during the Program Comment's implementation? If so, how were they resolved?

Project has not been executed; no significant issues anticipated.

What is your assessment of the Program Comment's utility and effectiveness?

Although the Department of the Navy has only used this Program Comment once, we anticipate it will alleviate significant regulatory burden and allow for focused consultations on undertakings outside of the coverage of this Program Comment. Based on the undertakings listed in Appendix A and B, we anticipate that this Program Comment will be useful and effective.
